

GOTBio Grant Services

- **Grant Proposal Development (SBIR, STTR, DOD, and private foundations)**

- Service: Comprehensive development of grant proposals, including research, writing, and organization of all required components.
- Includes: Needs assessment, project design, objectives, methodology, budget, and evaluation plans.

- **Grant Research and Identification**

- Service: Identifying and researching potential funding opportunities that align with the client's mission, goals, and project needs.
- Includes: Database searches, funding opportunity analysis, and matching grants to specific projects.

- **Proposal Review and Editing**

- Service: Detailed review and editing of grant proposals to ensure clarity, consistency, and compliance with funder guidelines.
- Includes: Technical editing, proofreading, and formatting services.

- **Strategic Grant Planning**

- Service: Long-term planning and strategy development for pursuing grants over time, including timeline creation and resource allocation.
- Includes: Development of a grant calendar, identification of funding priorities, and strategic alignment with organizational goals.

- **Budget Development**

- Service: Assistance in creating detailed and compliant budgets for grant proposals.

- Includes: Cost estimation, justification of expenses, indirect costs, and budget narrative.

- Grant Application Submission

- Service: Managing the submission process, ensuring all components of the grant application are complete and submitted correctly.

- Includes: Formatting, electronic submission through portals like Grants.gov, and compliance with funder submission requirements.

- Grant Management and Compliance

- Service: Ongoing management of awarded grants, including monitoring progress, reporting, and ensuring compliance with funding requirements.

- Includes: Preparation of progress reports, financial reporting, and funder communications.

- Letters of Intent (LOI)

- Service: Writing and preparing Letters of Intent to submit to potential funders before a full proposal.

- Includes: Crafting concise and persuasive LOIs that outline the project and its significance.

- Needs Assessment and Data Collection

- Service: Conducting needs assessments and collecting data to support grant proposals.

- Includes: Surveys, interviews, data analysis, and demographic research.

- Training and Workshops

- Service: Providing training sessions and workshops on grant writing best practices, funder expectations, and proposal development.

- Includes: On-site or virtual workshops, customized training, and webinars.

- Grant Writing Consultation

- Service: One-on-one or group consultation to provide guidance and advice on specific grant opportunities, strategies, and proposal development.
- Includes: Strategy sessions, proposal brainstorming, and answering specific grant-related questions.

- Grant Re-submission Assistance

- Service: Help with revising and resubmitting proposals that were previously unfunded.
- Includes: Analyzing feedback from funders, revising the proposal, and resubmission strategies.

- Collaborative Partnerships and Team Building

- Service: Assistance in building partnerships and collaborative teams necessary for multi-institutional or complex grant proposals.
- Includes: Identifying partners, facilitating collaboration, and managing joint proposal development.

- Evaluation Planning and Design

- Service: Developing evaluation plans that are often required by funders to measure the success and impact of the funded project.
- Includes: Logic models, performance metrics, data collection methods, and reporting plans.

- Grant Prospectus and Case Statements

- Service: Creating prospectuses or case statements to present to potential funders as a precursor to a formal grant proposal.
- Includes: High-level summaries of the project, its significance, and funding needs.
